## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments and amendments, filed 10/7/02, have been fully considered and reviewed by the examiner. In light of the amendments and arguments, the rejections of the claims under 35 USC 112 have been withdrawn by the examiner. The examiner acknowledges the cancellation of Claims 15-18. Claims 1-14 are pending.

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971). Specifically, the applicant refers the heating vacuum limitations. However, Hayashi et al. teaches that the heat treatment occur while drawing a vacuum in the chamber (Col. 8, lines 37-64). One skilled in the art would have found it suggested to them that the pressure can be less in the chamber than during the deposition, in Hayashi et al., by such a teaching, and thus would have found such a vacuum application an obvious modification to Hayashi et al., with the expectation of providing the desired heat treatment.

The applicant further argues that the references do not teach forming the oxide film at a temperature equal to or higher than the boiling point of the solvent. The examiner respectfully disagrees. The Hayashi reference specifically teaches heating the applied precursor to 200-

500°C and then to 500-1000°C to form the oxide film (Col. 8, lines 36-57). These temperatures are above the boiling point of the solvents of Hayashi. Therefore, it is the examiner's position that Hayashi does teach the claimed heating conditions. Therefore, the examiner is maintaining the use of the references as previously set forth.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3, 9, and 12-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hayashi et al. in view of Solayappan et al.

Hayashi et al. and Solayappan et al. are applied here for the same reasons as given above and in paragraph 8 of the previous office action.

4. Claims 4-8 and 10-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hayashi et al. and Solayappan et al. as applied to claim 1 above, and further in view of Ogi et al.

Hayashi et al., Solayappan et al., and Ogi et al. are applied here for the same reasons as given above and in paragraph 9 of the previous office action.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1762

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
